Thanks for the summary, Corinne. This is very helpful. Given we're uncertain regarding the status of the R3 tissue data, let's park that one until we hear more. In addition, please bump the R3 sediment grabs to the top of the list so that our order is as follows:

- Round 3 sediment grabs
- Willamette Cove sediment chemistry
- Round 2 Archived PCB from 2008-06-02
- GERG analyzed Sturgeon data

- R3 tissue data pending. Suggest we bump to the top of the list once outstanding questions are addressed.

Sound OK?

-R
